Falbe, 2; Judas, Carth., 14; Schröder, Carth., 14 et 15; Euting, 13 et 14.

(Tab. I.)

Falbe reperit, inter rudera Carthaginis, die 12 maii 1838. Cippus est $0^{m},27$ altus. Titulum infra ❁ et figura quadrata cum umbonibus parvis novem, usus incerti. Exstat Hafniæ in regali museo. Saulcy edidit : *Journ. asiat.*, mars 1843, p. 275. Idem retractavit, *Inscriptions trouvées à Carthage*, in *Rev. archéol.*, t. III, p. 629 et sqq., necnon in *Annales de l'Institut archéologique de Rome*, 1847, tab. G. Cf. Judas, *Étude démonstr.*, p. 45, 72, 146, et tab. VIII; Movers, *Phön. Texte*, I, p. 113; Schröder, *Phön. Sprache*, p. 55, 87, not. 11; 170, 171, 201, 209, 260, n° 4, et tab. XIII, 5. Damus ex ectypo gypseo. Hæc leguntur :

In hoc titulo, litteræ ו, נ et כ, quod jam Judas optime vidit, inter se simillimæ sunt. In versu 2°, ואדן perverse scriptum est pro לאדן. Mulier votum vovit. Nomina hæc sunt : *Amatmilcata filia Śafati*. Licet tamen vocabula aliter dividere, nempe : אש נדרא מתמלכת. — Nomen שפט est parum distincte scriptum, certum tamen.

Tituli alterius, titulo Falbiano simillimi, transcriptionem hebraicis litteris Gesenius dedit in *Thesauro ling. Hebrææ*, p. 1345, ex apographo; imaginem ipsam apographi non dedit. Hunc titulum vir doctus asserit repertum esse a Grenville Temple, anno 1839, in ruderibus Carthaginis, exstare autem in Bibliotheca Maxima Parisiensi. Schröder repetiit, *Phön. Sprache*, p. 55 et 201; Euting, Carth. n° 13. Sed a nullo eorum qui his studiis insudant lapis postea visus est, nec in armario Bibliothecæ vel exstare, vel unquam inscriptum esse nobis testatur v. cl. Leopoldus Delisle, bibliothecæ præfectus. Titulum porro Gesenianum eundem esse censemus ac titulum Falbianum. Quæ res quo clarior fiat, damus hic transcriptionem Gesenianam :

לרבת לתנת ולב
עלן לאדן לבעל ח
מן אש נדרא ש
לכת בת קטן

Vers. 1-2. Gesenius legit ולבעלן לאדן, errore solito. Corrige certo פן בעל ולאדן.

Vers. 3-4. Nomen muliebre שלכת parum placet neque alias repertum est. Facile autem concipitur quomodo,

(Impressum mense novembri 1890.)

in titulo exscribendo, litteræ duæ מת omissæ sint, sequente מ altero quod Gesenius ש esse duxit, arcta harum litterarum similitudine in errorem inductus.

Versu 4°. Quomodo 𐤔𐤐𐤈 in 𐤒𐤈𐤍 mutatum sit perspicuum erit, si imaginem tituli in tabula nostra I[a] expressam inspexeris.

Adde versus utriusque tituli iisdem elementis constare, eodem ordine dispositis, et in easdem litteras desinere. Ergo titulum cujus apographum Gesenius a Templio anno 1839 accepit eum ipsum esse quem Falbius anno 1838 in ruderibus Carthaginis reperit pronuntiare non dubitamus. Titulus autem sic legendus est et vertendus :

לרבת לתנת פן ב-
על ולאדן לבעל ח-
מן אש נדר אמתמ-
לכת בת שפט

Id est :

Dominæ Tanitidi faciei Baalis, et domino Baali Hammoni, quod vovit Amatmilcata, filia Śafati.

Touzon, 4.

(Tab. V.)

E Byrsæ viciniis. Cippus $0^{m},18$ circiter altus; tituli ab utroque latere . Titulus neopunicus fere unicus, inter tot titulos votivos Tanitidi et Baali Hammoni dedicatos, fuit, anno 1873, penes Touzonem, sacelli Sancti Ludovici custodem. Sainte-Marie ectypum nobis misit. Lapis amissus est.

Hæc legimus :

Id est :

לרבת ולארן בעל המן
[נשא] ארשת בת בדעשתרת
שמא קלא ברך אתא

Titulus lectu parum facilis.

Versu 1°, in initio legere nobis videmur לרבת «Dominæ», cum ל punico scriptum, quasi, primis scripturæ illius neopunicæ temporibus, consueverint litteras punicas pro majusculis usurpare; nisi tamen sola scribæ

negligentia culpanda est. Nomen deæ Tanit Penê-Baal omissum est. In fine versus ejusdem, habes המן pro חמן.

Versus 2ⁱ in initio, litteras tres legendas primo intuitu credideris בשם, quo loco vota alia habent solemnia verba אש נדר «quod vovit»; sed non habemus quid de his litteris agamus; adde ב illud in initio versus punicum esse non neopunicum, ut decuit; legimus ergo נשא «obtulit», collatis supra nis 401, 408 et 411-416.

Versu 3°, in fine, legimus ברך אתא «benedixit ei», hebraico more = ברך אתה, solitæ loco formæ ברכא, cum pronomine suffixo; mirum quidem, lectio tamen certa.

Verte :

Dominæ et domino Baali Hammoni,
obtulit Arišata, filia Bodaštarti;
audivit vocem ejus, benedixit ei.

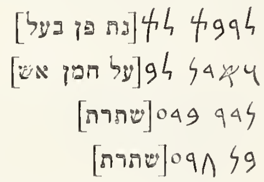

Titulus ergo singularis, nec ex eo argumenta sumenda sunt quæ universæ classi applicentur (vide supra, t. I, p. 284-285).

Sainte-Marie, 19 inscr., 1.

(Tab. V.)

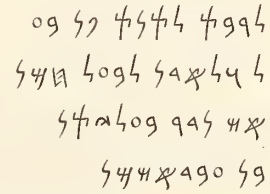

Carthagine, medio fere intervallo inter sacellum Sancti Ludovici et mare, loco quem in ichnographia nostra littera E notavimus. (Vide t. I, p. 279, et ichnographiam, p. 275.) Reperit E. de Sainte-Marie, cum titulis aliis duodeviginti, quinque quorum titulis inscripti, anno 1874, diebus 25-27 mensis augusti; idem ectypa fecit et Academiæ inscriptionum misit, die 1^a septembris 1874; lapides ipsos museo Luparensi dono dedit, ubi nunc exstant.

Hoc autem fuit ei initium reperiendorum titulorum Tanitidi et Baali Hammoni dicatorum, qui intra paucos menses in tantam molem creverunt. Plura de his lapidibus et de eorum sorte vide supra, t. I, p. 274-286. Longam eorum seriem habes inde ab hoc numero; non omnes tamen ab E. de Sainte-Marie in unum ordinem redacti. Etenim priores hos undeviginti cippos, museo Luparensi donatos, numeris suis inscripsit; postea, quum numerum cipporum repertorum in dies crescere vidit, novum ordinem inchoavit, inditis n^{is} 1-2170. Quosdam ex illis quibus memorabile aliquid inerat, in tomo I jam edidimus, suo quemque loco. Quod ad ceteros attinet, ordinem a Sainte-Marie datum quantum potuimus secuti sumus. Lapides superstites, quotquot in Bibliotheca Maxima Parisiensi asservantur, contulimus et in tabulis nostris, quum sunt integri, repræsentavimus; idem egimus de titulis qui fracti a Sainte-Marie reperti sunt, necnon de iis qui nonnihil detrimenti incendio navis Magenta passi sunt. Quotiescumque contra lapis periit vel ita fractus est ut frustula tantum exstent, ectypum in tabulis dedimus. Tres igitur titulorum a Sainte-Marie repertorum series habes, quarum prima titulos exhibet qui integri in Bibliothecam Maximam Parisiensem venerunt; secunda titulos quorum fragmenta tantum exstant; tertia denique titulos quorum ectypa tantum habemus. Quod ad tabulas attinet, aliæ a lapidibus, aliæ ex ectypis effictæ.

Neque tamen seriem integram cipporum a Sainte-Marie repertorum tabulæ nostræ explent; sunt enim quidam anepigraphi, sunt quorum titulus, fracto lapide, perierat antequam reperirentur. Hos cippos, quoniam nihil ad rem epigraphicam afferunt, in *Corpus* nostrum non recepimus; non negligendi tamen ab iis sunt qui veram religionis illius indolem intelligere et sinceram imaginem præ oculis habere voluerint.

Sacrarium Neptuni, nuperrime Thignicæ, hodie Aïn Thunga, repertum (Ph. Berger et R. Cagnat, *Sanctuaire de Saturne à Aïn Thunga, Bulletin arch. du Comité des travaux hist.*, 1889, p. 207-265), claro exemplo nos docet quænam fuerint innumerabilium cipporum Taniteorum dispositio et usus, et illustrat ea quæ supra de cipporum nostrorum natura disseruimus. Ibi enim cippi votivi 426 numero reperti sunt, non humi sparsi, vel muris inserti, sed erecti, quales a cultoribus Saturni dedicati fuerunt. Apparet inde *κοιμητήρια* fuisse, non mortuorum, sed votorum, in quibus vivi cippos deo sacros in perpetuam votorum susceptorum memoriam erexerunt.

Cippus de quo agimus 0^m,26 altus est, 0^m,12 latus. In fastigio ; supra titulum ovorum ordo, infra .

Dedicatio solita. Votum muliebre. Nomina admirationem movent. Nomen quale בתמתנבעל «Filia Mattanbaalis» prorsus inauditum; etenim Mattanbaal per se nomen est muliebre. Fortasse de errore scribæ cogitandum est, qui בת ante nomen scripserit et postea delendum non curaverit. — Nomen patris עבדשרא, vel עבדשרא, non notum magis est; certo nomen dei vel deæ novum exhibet. Licet de dea Sara, vel de deo שרא = שדי conjecturas fingere, collatis numinibus quæ שדים Hebræi dixerunt. Euting contractum esse ab עבדדשרא = «Abddusara» subdubitans conjicit.

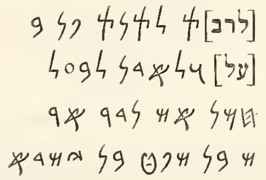

Titulum sic ergo corrigendum putamus : אש נדר מתנבעל בת עבדשרא = *quod vovit Mattanbaal, filia Abdsaræ* (vel *Abddusaræ*).

Dedicatio solita. Nomen voventis est : שמרבעל בן בדמלקרת בן מסף = *Śamarbaal, filius Bodmelqarti, filii Musafi.*

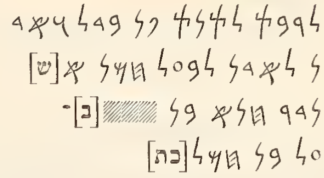

Versu 4°, litt. ת, in nomine Bodmelqarti, prorsus deleta est, vel omissa. — Nomen שמרבעל habes supra, n° 384 (cf. שמר, n° 193); nomen מסף, supra, n^{is} 328 et 361, et infra, n° 809, pronuntiandum est Mosef, vel potius Musâf, ut vult Euting. מְסָף, sive מוּסָף, est «additus», i. e. «additamentum». Dedicatio solita. Nomen voventis sic legimus : עזרבעל בן ברך בן ....[ל] = *Azrubaal, filius Bereci, filii* ....[*lis*].

Versu 3°, ante כברך, lineamentum, litteræ ך simillimum, lapidis iniquitati fortasse adscribendum est; כברך enim non est nomen.

Vers. 5-7, legis אש נדריא גרישת▨ת. Littera una dubia est א, in initio versus 6^i^. Vocabula sic dividenda putamus: אש נדריא גרישת[ר]ת = *quod vovit Geraštoret*, vel אש נדר יאגרישת[ר]ת = *quod vovit Jaguraštoret;* prius probabilius nobis videtur; יגר enim a radice גר ductum est, nec א

Quid si nomen insolitum גרישת[ר]ת sit femininum, ita ut vir *Gerostratus*, mulier *Geristrata* audiverit? Etenim genealogia nulla. Erunt fortasse qui legant ...אש נדר יאגר ישת «quod vovit Iagur, uxor N.....», ישת pro אשת sumentes; sed nec barbarum minus sonat, nec mariti nomini spatium amplum supersit. Vertimus igitur subdubitantes : *quod vovit Geraštarte.* Vide tamen an non vocabula sic dispescere liceat : נדרי אגרישת [ב]ת, nomen mulieris peregrinum, cum *aleph* prosthetico, nomine patris omisso.
